

Low-Flow Infusion Mesh

Flow Media

Product Number

PV-50

Description

A 3D, PE knitted mesh, compatible with all standard epoxy, polyester, and vinylester resin systems. Slower flow, economical black “shade cloth.” Drapes and conforms easily to compound shapes. It can also be used as a reusable breather for debulking at room temperature. Available in 2m wide x 100 m long rolls.

Pre-production trials are recommended to confirm suitability of PRO-VAC Vacuum Consumables with your unique laminate schedules and processes.

Technical Data

Part Number	Thickness		Length		Width		Elongation at Break	Max Temp		Color
