

## Enka® Resin Feed

### Product Numbers

PV-66-50, PV-66-100

### Description

An infusion channel made with a 3D matrix for fast resin flow. The high rate of resin flow increases efficiency and reduces infusion time. Enka® Resin Feed provides steady flow speeds over large surfaces and is available in two different widths that can be used up to 302°F (150° C).

Part Number	Material	Inlet Width		Length		Max Temp	
<b>PV- 66-50</b>	Enka 3D Matrix	50 mm	1.97"	100 m	328'	150°C	302°F
<b>PV-66-100</b>	Enka 3D Matrix	100 mm	3.94"	100 m	328	150°C	302°F
